Churn Rate by Subscription Type and Contract Length Behavior and Value by Usage Group and Churn

Customer Churn Story

Who Is Churning?
usage level

Why Are Customers
Churning?

What Should the
Company Do Next?

- Focus retention on customers aged 55+, female customers, and medium-usage customers.
- Encourage monthly-contract customers to switch to quarterly or annual plans.
- Flag customers with many support calls and long payment delays for proactive follow-up.
